

LINUX COMMENTS

The image shows a terminal window with a dark purple background. The window title bar includes tabs for 'Command Prompt' and two instances of 'ayesha@LAPTOP-T00JS009: -'. A notification bar at the top states 'Termination behavior can be configured in advanced profile settings.' with a 'Don't show again' button. The terminal content shows the command 'history' being executed, which lists 34 previous commands. The commands include directory navigation (ls, cd), system utilities (date, bc), and system management (sudo apt update). The prompt 'ayesha@LAPTOP-T00JS009:~\$' is visible at the top of the command list.

```
ayesha@LAPTOP-T00JS009:~$ history
1  ls
2  cd ../
3  ls
